

## “Implementation of Innovative Technologies for Next Gen Banking”

**Nikhil Bandi**

Senior Vice President  
Chief Information Officer &  
Head of Operations

Mr. Nikhil Bandi, Our Chief Information Officer participated as one of the key speakers in **NBFC 100 Tech Summit** held at New Delhi in April 2018. Apart from providing his views on cloud compliance, Mr. Bandi led the CIO panel discussion on **"Implementation of innovative technologies for Next Generation Banking"**. He elaborated on importance of decision making while considering innovations for implementation in NBFC sector.

Mr. Bandi also mentioned that innovation in the field of **Natural Language Processing, Psychometric profiling and Social profiling of customer** is highly relevant for lending industry, while **IOT or block-chain** are little far away to have implementable use cases in NBFC sector specially in individual lending space. Usage of government initiated and supported platforms like **Aadhaar (UIDAI)** or **UPI** are the innovations to be embraced immediately to prepare companies and industry as a whole for next generation banking.

Panel Discussion led by our CIO

## “Caring for Environment @ Vistaar”

Cheers to the Team

### Tree Plantation by Solapur Branch:

There was a **“Go Green”** Initiative which was taken up by the Solapur Branch which was self-initiated. They put in their heart and soul to plant many tree seedlings in a nearby famous garden area of Solapur. There was voluntary participation by the entire team as well as personal contribution from each of them which helped them gift gardening materials for nurturing the plants further.

Following are a few glimpses of the event.

Solapur Team greatly involved in the tree plantation event
